

PCI EXPRESS USB 3.1 CARD - 1A1C

1xA ext - 1xC ext

EAN-Nr: 4260134939423

Art-Nr: 7070030

Sku: H192253

Specification:

It doubles the bandwidth of USB 3.0 to a stunning 10Gbps. It comes with a USB-A and a new generation USB-C connector. USB-C is reversible and so no need to worry which direction to plug in. USB-C is also better than USB-A that it increases the current from 900mA to 3A.

More devices will be supported in bus-powered mode and charging will be much faster. For new MacBook and the new Chromebook Pixel user, your USB-C accessories will also work in your PC.

Features:

- * Compliant with PCI Express Base 3.0 Specification
- * Support PCI Express Gen2 x2 or Gen3 x1
- * Compliant with Universal Serial Bus 3.1 Spec.Rev.1.0
- * Compliant with Universal Serial Bus Spec.Rev.2.0
- * Backward to compatible with USB 3.0/2.0/1.1 interface
- * Up to 10 Gbps bandwidth performance with low latency
- * Support two port of USB 3.1
- * Compliant with eXtensible Host Controller Interface
- * (xHCI) Specification Revision 1.1
- * Support over current detection

System Requirements:

- * Windows® 7 / 8 / 8.1 / 10 (32/64bit)
