- Any use other than described in this user's manual is not permitted and causes loss of warranty, loss of guarantee, and non-liability. We reserve our right for misprints and changes of the device, packing, or user's manual

Specifications:

Cable length	app. 2.0 m
Input voltage	max. 250 V AC
Current	max. 16 A / IP20, Protectclass I (Class I)
max. permitted power	3.680 W (sum of all connected devices)
Conductor diameter	1.5 mm ²

Disposal Instructions:

Product should not be disposed together with domestic waste. Please return your product free of charge at the end of its service life at the producer, the sales outlet, or a public collection point, established for this purpose. Details for disposal are regulated in the relevant federal state law. Potential recyclable materials are fed into the recycling cycle to obtain new raw materials from them. Following materials are collected a local collection points:
